

I am writing in support of keeping stations like K-LOVE on the air rather than giving LPFM priority. I have been listening and supporting K-LOVE for many years and it is an invaluable part of our families routine. It provides a "what's happening in your area" announcement several times a day to keep you updated on events in your area. We rely on this for concert and other community event information. There is no other station of this type to spread the news of Christian concerts and other goings-on in our area. K-LOVE provides programming that is not offensive to anyone and is safe for my family to listen to at any time of the day. It seeks support for local events and serves as a way to keep Christians across America informed on issues we care about. I would be greatly saddened to see any area lose K-LOVE due to new regulations concerning LPFM broadcasts.
